EXPERIENCE

2020 – Present | Freelance | Lead Product Designer

Zalando - Contributed to the transition from transactional e-commerce to inspiration-led discovery, shaping product direction beyond purchase flows and supporting new discovery experiences.

Grab - Led research and early concept development for future-facing driver experiences and food discovery, exploring new interaction models across mobility and consumer services.

Sonnen - Improved B2B web platforms for the partner ecosystem, enabling more efficient commissioning, servicing, and scaling of PV battery systems.

Taxfix - Led design and research for the Italian market launch, helping define product direction and validate solutions for local users.

Selected other clients: Deutsche Bahn, Futur2, Google, Holoplot, Porsche Digital, QAI, Snapp Automotive, WE3.

2018 – 2020 | Senior UX Designer | Designit

Led multidisciplinary teams on complex service and product challenges across mobility, finance, and consumer domains, delivering end-to-end digital products for large organisations.

2017 – 2018 | Senior UX Designer | B–Reel

Designed and shipped interactive web experiences for global brands, translating creative concepts into high-quality, production-ready digital products.

2015 – 2017 | Interaction Designer | HERE

Designed interaction and sound experiences for embedded automotive navigation systems (Jaguar XF), and developed multiscreen, multimodal, and sound design concepts for autonomous driving scenarios.

2013 – 2015 | Lecturer | Aalborg University (AAU)

Co-taught interaction design and physical interface design at bachelor level, and advanced prototyping at master level, bridging theory with hands-on experimentation.

SERVICES

Product strategy & problem framing - Defining what to build and why through product vision, value propositions, MVP definition, and informed decision-making.

Experience & interaction design - Designing clear, usable product experiences with strong attention to interaction, behavior, and multimodal systems.

Delivery, validation & collaboration - Hands-on design from concept to release, working closely with founders and product teams through prototyping, testing, and iteration.

EDUCATION

MSc Media Technology

Aalborg University, Copenhagen (DK)
Master's thesis with maximum grade (12/12)

BA Sound Engineering

Conservatorio Cesare Pollini, Padua (IT)
Final thesis with maximum grade (110/110, with honours)
