

From problem framing to shipped product - 15 years across fintech, consumer, automotive & music.

Experience

Freelance (selected clients)

Pleo | Designer | Feb 2026 — Present | Berlin, Hybrid

Contributing to Pleo's expansion into enterprise multi-entity spend management, shaping onboarding and admin experiences within an AI-driven product and design process.

Zalando | Designer | Feb 2025 — Aug 2025 | Berlin, Hybrid

Contributed to the transition from transactional e-commerce to inspiration-led discovery, shaping product direction beyond purchase flows.

Grab | Designer | Aug 2023 — Nov 2024 | Singapore, Remote

Led research and early concept development for future-facing driver experiences and food discovery, exploring new interaction models across mobility and consumer services.

Sonnen | Designer | Jan 2022 — May 2023 | Berlin

Improved B2B web platforms for the partner ecosystem, enabling more efficient commissioning, servicing, and scaling of PV battery systems.

Taxfix | Designer | May 2020 — Jun 2021

Led design and research for the Italian market launch, helping define product direction and validate solutions for local users.

In-house

Designit | Senior UX Designer | 2018 — 2020

Led multidisciplinary teams on complex service and product challenges across mobility, finance, and consumer domains, delivering end-to-end digital products for large organisations.

B-Reel | Senior UX Designer | 2017 — 2018

Designed and shipped interactive web experiences for global brands, translating creative concepts into high-quality, production-ready digital products.

HERE | Interaction Designer | 2015 — 2017

Designed interaction and sound experiences for embedded automotive navigation systems (Jaguar XF), and developed multiscreen, multimodal, and sound design concepts for autonomous driving scenarios.

Services

Product strategy & problem framing — Defining what to build and why through product vision, value propositions, MVP definition, and informed decision-making.

Experience & interaction design — Designing clear, usable product experiences with strong attention to interaction, behavior, and multimodal systems.

Delivery, validation & collaboration — Hands-on design from concept to release, working closely with founders and product teams through prototyping, testing, and iteration.

Education

MSc Media Technology — Aalborg University, Copenhagen (DK)
Master's thesis with maximum grade (12/12)

BA Sound Engineering — Conservatorio Cesare Pollini, Padua (IT)
Final thesis with maximum grade (110/110, with honours)
